Indigo Ag US Project No. 1 (CAR1459)

Reporting Period 4

Issued 2025

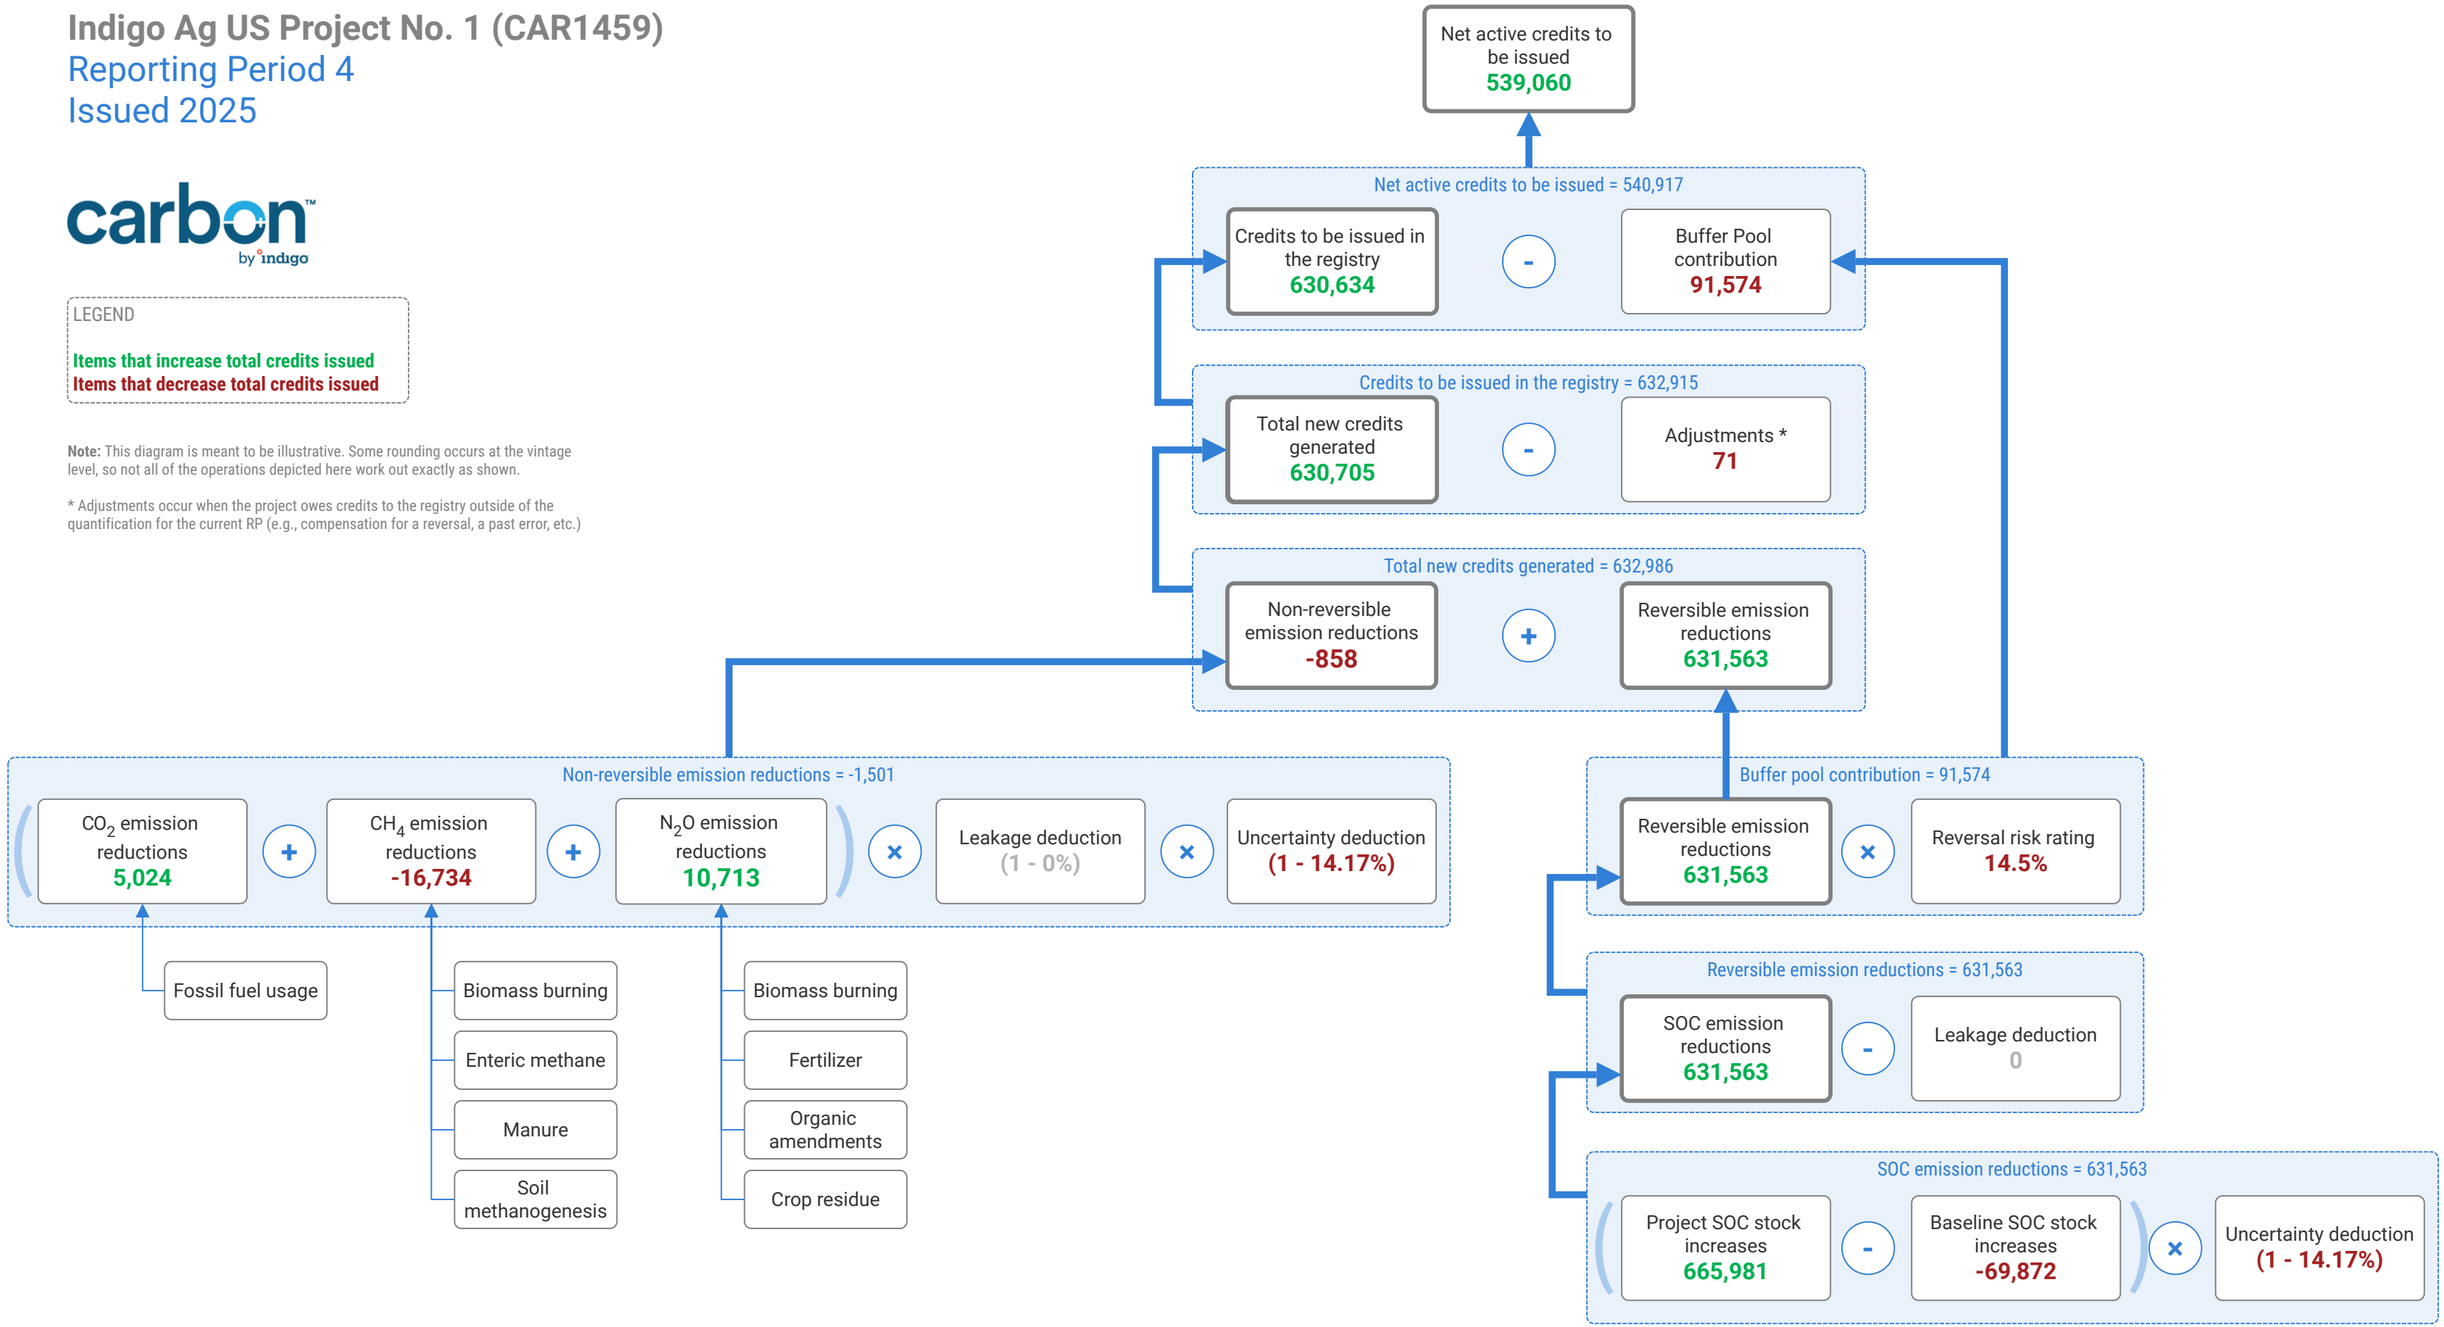

carbon™ by indigo

LEGEND

Items that increase total credits issued
Items that decrease total credits issued

Note: This diagram is meant to be illustrative. Some rounding occurs at the vintage level, so not all of the operations depicted here work out exactly as shown.

* Adjustments occur when the project owes credits to the registry outside of the quantification for the current RP (e.g., compensation for a reversal, a past error, etc.)
